

Alish Allawadhi

React | Adaptable | Collaborative

EXPERIENCE

Softobiz Technologies, Associate Software Engineer July 2022 – Present

- **Clientpoint Enterprise Solutions - SaaS, React.js (Next.js)**
 - Developed and maintained B2B SaaS applications using React, TypeScript, Redux Toolkit, and Material-UI.
 - Built modular and reusable UI components, enabling scalability and maintainability across projects.
 - Managed application state using Redux Toolkit, improving performance and data flow.
 - Optimized web application performance via code splitting, lazy loading, and memoization.
 - Collaborated with backend teams to integrate RESTful APIs using Axios.
 - Ensured code quality with unit testing frameworks such as Jest.
 - Participated in code reviews, sprint planning, and agile ceremonies.
- **Peak IT - Consulting & Project Management Platform**

Developed and maintained responsive React-based applications for a consulting and project management platform, enabling seamless communication, collaboration, and project tracking for enterprise clients.

 - Designed and implemented complex features for a consulting and project management platform using React, Redux, and Context API.
 - Integrated GenAI APIs to automate tasks like code generation and content summarization.
 - Utilized React Router for SPA navigation and ensured cross-browser compatibility.
 - Collaborated closely with designers and product managers to deliver user-centric features.
 - Followed agile methodologies and contributed to a collaborative development environment.
- **TourO Bikes - Bike Rental & Mobility Solutions Platform**

Developed and enhanced user-facing React applications for a mobility platform, enabling seamless bike rental bookings, real-time availability, and secure payments for thousands of users.

 - Engineered responsive web and mobile interfaces using React.js, TypeScript, and Bootstrap.
 - Managed booking flows and live data updates through Redux Toolkit.
 - Integrated secure payment systems and performed UI/UX enhancements for improved user experience.
 - Addressed bugs, performed code refactoring, and optimized front-end performance.

SUMMARY

React.js Developer with almost 3 years of experience successfully delivering robust web applications across multiple projects. Skilled in building dynamic and responsive user interfaces using React.js, JavaScript, and modern front-end technologies, consistently providing high-quality solutions and seamless user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Web Technologies: ReactJS, Redux Toolkit, Context API, React Router, Material UI, HTML, CSS, Bootstrap, Tailwind

Tools: GitHub, Bitbucket, Visual Studio Code, Postman, Jira, Xcode, CursorAI, Visual Studio

Operating Systems:

Linux(Ubuntu), macOS, Windows

Education:

Bachelor of Technology in Computer Science.

Chandigarh Engineering College (2018 – 2022)

Key Strengths:

Complete ownership of front-end solutions.

Strong problem-solving and debugging skills.

Effective communicator and team collaborator.

Up-to-date with modern React ecosystem and GenAI trends.

Focused on scalable, maintainable, and high-performance code.
